

“KNOW THE CODE”

Commercial Property Inspection Services

CodeMaster Inspection Services provides commercial property inspections and reporting. We inspect all facility types — offices, hotels, restaurants, warehouses, hospitals, retail stores, manufacturing facilities, schools, and multi-family residential units. CodeMaster serves building owners, lenders, investors, insurers, property managers, and buyers.

Our skilled inspectors provide the information you need to purchase, renovate, or sell your property. CodeMaster’s Commercial Property Inspection Reports offer a comprehensive property condition assessment and inform and assist you in negotiating a fair price, understanding if a property will meet your business needs, and planning for future property improvements. CodeMaster’s reports are accurate, reliable, and promptly completed. Plus, we customize the reports to meet your specific needs.

Our inspectors offer 200+ years of construction and inspection experience and include three certified Master Code Professionals (MCPs) and six certified code officials. CodeMaster’s varying skill sets allow us to appropriately assign personnel for every project type. We can also draw upon the staff experts at Boyle Construction, our allied company. Boyle’s personnel have backgrounds in general contracting, construction management, estimating, architecture, and engineering. CodeMaster also maintains positive relationships with expert technicians, whom we can engage as needed to support our inspections.

Let CodeMaster assist you with your due diligence requirements and prevent future surprises in your facilities. Our timely expertise will keep your investment funding in check.

CodeMaster’s Commercial Property Inspection Services allow you to:

- Determine building performance issues and repair requirements before you purchase
- Understand system deficiencies
- Review change of use and how this affects your new operation
- Respond to investor questions with solid research and cost data
- Show bank officials that you have done your due diligence
