

“KNOW THE CODE”

PA Uniform Construction Code (UCC) Consulting Services

CodeMaster Inspection Services offers UCC Consulting Services for area industry professionals. We assist architects, engineers, designers, builders, and construction managers to quickly and accurately meet UCC requirements, by promptly reviewing and answering your code-related questions, allowing your staff to focus on their areas of expertise.

CodeMaster’s Consulting Services will support your team by:

- 1) Providing code compliance peer reviews prior to submission. We will assist you in reducing redesigns through the identification and correction of code violations prior to municipal submissions.
- 2) Recommending alternatives for code-related design challenges. We will provide suggestions for resolving code obstacles, including providing guidance for when to propose code exceptions to aid in your design.
- 3) Supporting your code interpretations. We will assist you in defending your design decisions with local officials by providing solid code evidence.
- 4) Reducing the need for construction corrections in the field. We understand how costly code corrections in the field can hurt a project’s bottom line.

Our inspectors offer 200+ years of construction and inspection experience and include three certified Master Code Professionals (MCPs) and six certified code officials.

CodeMaster’s Consulting Services provide your team the peace of mind and resources to more efficiently and cost-effectively respond to your clients. We also offer a UCC Training Program to enhance your team’s code knowledge. Together, we will improve your project productivity and your clients’ overall experience.

CodeMaster’s UCC Consulting Services include:

- Peer review and mark up of architectural plans prior to formal submission
- Identification of applicable codes, regulations, and standards based on project’s specifications
- Interpretation of and suggested variances to UCC regulatory provisions
- Communication with your local officials, and preparation of required municipal reports
- Review of plans for accessibility code compliance
